
ESL Reads and the EAL Framework Curriculum Guide For AMEP teachers

ESL Reads and the EAL Framework Curriculum Guide

This guide is designed to help you match the ESL Reads texts in terms of both topic and level with the relevant unit of competency in the EAL Framework. It has been compiled in collaboration with experienced AMEP educators who have reviewed the texts to ensure their suitability. While this guide provides a general overview, it is also important to consider how these texts, with their specific language features, and the activities you select, can be employed to address the performance criteria in other units.

Course in Initial EAL

Some Pre-Level 1 texts can be used for this course.
